A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 19 November has been entered.

The following is an examiner's statement of reasons for allowance: The claims recite a metallic current collector including transverse passages, and directly contacting an electrolyte membrane, where an electrode layer comprising a catalytic element disposed over the current collector and membrane, which fills the passages and also contacts the membrane. This structure is present on both sides of the membrane and forms two opposite electrodes. These features are not disclosed by Klitsner *et al.* (US 2002/0122972), previously applied under §102, nor by any other prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 7-12, for the above reasons, are allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Kalafut whose telephone number is 571-272-1286.
